PLANT AND SOIL

Contents Volume 296 Nos. 1–2 July 2007

Regular Articles

Leaching loss of NO_3-N and dissolved P from manure and fertilizer during turfgrass establishment
F.J. Hay, D.M. Vietor, C.L. Munster, R.H. White and T.L. Provin 1–17

Plant traits, litter quality and decomposition in a Mediterranean old-field succession
J. Cortez, E. Garnier, N. Pérez-Harguindeguy, M. Debussche and D. Gillon 19–34

Adsorption of insecticidal toxin from *Bacillus thuringiensis* subsp. *Kurstaki* by some Chinese soils: effects of organic acid ligands addition
Q. Fu, H. Hu, S. Chen, Q. Huang and W. Liang 35–41

Allantoin involved in species interactions with rice and other organisms in paddy soil
P. Wang, C.H. Kong, F. Hu and X.H. Xu 43–51

Individual vs. population plastic responses to elevated CO_2, nutrient availability, and heterogeneity: a microcosm experiment with co-occurring species
F.T. Maestre, J.L. Quero, F. Valladares and J.F. Reynolds 53–64

Effect of long-term nitrogen fertilization on mycorrhizal fungi associated with a dominant grass in a semiarid grassland
A. Porras-Alfaro, J. Herrera, D.O. Natvig and R.L. Sinsabaugh 65–75

Differences in the effects of three arbuscular mycorrhizal fungal strains on P and Pb accumulation by maize plants
R. Sudová and M. Vosátka 77–83

Autotoxicity of wheat (*Triticum aestivum* L.) as determined by laboratory bioassays
H. Wu, J. Pratley, D. Lemerle, M. An and D.L. Liu 85–93

Outdoor evaluation of herbicide resistant strains of *Anabaena variabilis* as biofertilizer for rice plants
S. Singh and P. Datta 95–102

Early root growth plasticity in seedlings of three Mediterranean woody species
F.M. Padilla, J. de Dios Miranda and F.I. Pugnaire 103–113

Ammonium nutrition increases photosynthesis rate under water stress at early development stage of rice (*Oryza sativa* L.)
S. Guo, G. Chen, Y. Zhou and Q. Shen 115–124

Response of soil respiration to simulated N deposition in a disturbed and a rehabilitated tropical forest in southern China
J. Mo, W. Zhang, W. Zhu, Y. Fang, D. Li and P. Zhao 125–135

Organic matter quality and management effects on enrichment of soil organic matter fractions in contrasting soils in Zimbabwe
P. Mapfumo, F. Mtambanengwe and B. Vanlauwe 137–150

Surface modified zeolite, a novel carrier material for *Azotobacter chroococcum*
P. Joshi, S. Rayalu, A. Bansiwal and A.A. Juwarkar **151–158**

Competition for nitrogen between *Pinus sylvestris* and ectomycorrhizal fungi generates potential for negative feedback under elevated CO_2
O. Alberton, T.W. Kuyper and A. Gorissen **159–172**

Soil organic matter dynamics under decaying wood in a subtropical wet forest: effect of tree species and decay stage
M. Zalamea, G. González, C.-L. Ping and G. Michaelson **173–185**

Physiological basis of QTLs for boron efficiency in *Arabidopsis thaliana*
C. Zeng, F. Xu, Y. Wang, C. Hu and J. Meng **187–196**

Relationship between *Mikania micrantha* invasion and soil microbial biomass, respiration and functional diversity
W.-h. Li, C.-b. Zhang, G.-j. Gao, Q.-j. Zan and Z.-y. Yang **197–207**

Importance of point sources on regional nitrous oxide fluxes in semi-arid steppe of Inner Mongolia, China
J. Holst, C. Liu, Z. Yao, N. Brüggemann, X. Zheng, X. Han and K. Butterbach-Bahl **209–226**

^{13}C labeling of plant assimilates using a simple canopy-scale open air system
A.F. Talhelm, S.A. Qadir, M.D. Powers, K.L. Bradley, A.L. Friend and K.S. Pregitzer **227–234**

Differences between resource patches modify root herbivore effects on plants
G.N. Stevens, D.R. Pierson, K. Nguyen and R.H. Jones **235–246**
